Summary

Driven Data Analyst with significant experience analyzing and transforming large datasets to uncover actionable insights. Skilled in utilizing technical tools like Excel for effective data visualization and coding, coupled with a dedication to diversity, equity, and inclusion. Eager to leverage analytical skills to make strategic impacts and drive success in the data landscape.

Technical Skills & Certifications

Technical Skills: R, Excel, Tableau, SQL, Salesforce
Skills: Data Analysis, Data Presentation, Project Collaboration and Management

Work Experience

Illinois Department of Revenue - Department of Research Chicago, IL
Research Fellow June 2025 - May 2026
- One-on-one collaboration with tax research experts and practice projection methods utilizing current tax law.
- Collaborate with colleagues to discuss research approaches for effective revenue projections.
- Conduct research reviews and contribute findings to the organization's taxation research.

United States Department of Agriculture - Rural Development Chicago, IL
Management Assistant Nov 2022 - Jan 2026
- Completed data entry on community contacts and progress of over 300+ records, ensuring precise documentation.
- Increased efficiency in the documentation and progress of high-need CORE Communities, allowing for more federal funds to be allocated toward the project.
- Primary contact for the main phone line, answering 10-15 calls weekly, ensuring loan customers are redirected to specialists.

Chicago Scholars Foundation Chicago, IL
Data Solutions Intern Jun 2021 - Oct 2022
- Conducted all data analyses in alignment with Chicago Scholars Racial Equity Accessibility Diversity and Inclusion (READI) initiatives, including disaggregating program outcomes and translating findings into actionable insights.
- Analyzed major datasets for key trends and findings for program leads by creating graphs and other visualizations.
- Conducted literature reviews and annotated bibliographies related to the organization's strategic plan and developed analytical procedures based on findings in the literature.
